

**COLUMBUS GARAGE
FLOOR COATING**
—EST. 2009—

Limited Lifetime Warranty

Delamination

Columbus Garage Floor Coatings LLC (CGFC) guarantees **Superior** and **Mica** residential interior coatings (basements, garages, enclosed porches/patios) against any surface delaminating (peeling) as long as you own the home. This warranty is not transferrable. **Choice** floors are warranted for 5 years against surface delamination. Should any delamination occur during this period, CGFC will repair the delaminated area at no charge to the customer.

Please be aware that CGFC cannot guarantee a color match on touch ups/repairs due to factors beyond our control (i.e. dye lot changes, color settling, etc.) but we will make every attempt to match the color.

Exterior residential coatings (porches, sidewalks & patios) are guaranteed for 2 years against delamination. Fully enclosed porches/patios are considered as interior coatings.

Staining

Superior and Mica coatings applied by CGFC include a 3-year warranty against staining due to oil, grease and gasoline or transmission fluid. This warranty requires the customer to follow CGFC Cleaning Instructions which states *“spills should be cleaned up immediately as a safety precaution as well as to prevent staining on the floor”*. Choice floors do not include a stain warranty.

Columbus Garage Floor Coatings does not warranty coatings against damages caused by customer negligence and/or abuse; however, we will attempt to repair the damage at additional cost.

Warranty Exclusions

1. Garage Aprons are not warranted.
2. Warranty does not apply to any defect caused by alterations or modifications of any kind.
3. Warranty excludes abuse, misuse, neglect or accidents such as occur such as scratches, dropped items, lack of cleaning, scrubbing/buffing machines, harsh chemical cleaning (*see Cleaning Instructions*)
4. Warranty excludes harsh chemicals such as battery acid, brake fluid, paint thinner or abrasive detergents.
5. Warranty excludes moisture intrusion, hydrostatic pressure or other moisture related issues. If a moisture mitigation layer has been applied prior to the coatings, then CGFC will warranty for this issue.
6. Warranty excludes cracking in the underlying concrete as we cannot be held responsible for concrete that cracks due to heaving, shifting, popping, settling or ground movement. We can however fix the cracks at an additional charge, but we cannot guarantee the cracks won't reappear.
